

FEATURES OF THE GY SERIES

GY series offers ultimate rigidity and accuracy for stable grooving.

New TRIFORCE System for increased stability and performance!

● Innovative TRIFORCE System

Mitsubishi Materials has developed an original and unique, modular blade system. The TRIFORCE system ensures the blade is securely fixed in 3 directions (side, front and top), giving high rigidity for a stable grooving performance.

Original insert design leading the way to new grooving applications !

● Highly reliable insert clamping

Safety keys prevent insert movement.

The convex geometry ensures high precision clamping.
